Phospho-Src-Y419 Rabbit mAb

E45R11983N

Catalog Number:E45R11983N

Host Species: Rabbit

Isotype: IgG

Purification: Affinity purification

Species Reactivity: Human, Mouse

Immunogen Description:A phospho specific peptide corresponding to residues surrounding Y419 of human Phospho-Src-Y419

NCBI Gene ID:6714

Storage: Store at 4°C short term. For long-term storage, aliquot and store at -20°C or below. Stable for 12 months at -20°C. Avoid repeated freeze-thaw cycles.

Cite ID#:EN5519229

Type: Phosphorylated Antibodies

Positive control:NIH/3T3

Swiss-Prot No.:P12931

Summary: This gene is highly similar to the v-src gene of Rous sarcoma virus. This proto-oncogene may play a role in the regulation of embryonic development and cell growth. The protein encoded by this gene is a tyrosine-protein kinase whose activity can be inhibited by phosphorylation by c-SRC kinase. Mutations in this gene could be involved in the malignant progression of colon cancer. Two transcript variants encoding the same protein have been found for this gene. [provided by RefSeq, Jul 2008]

Form: Liquid

Storage Buffer: Buffer: PBS with 0.02% sodium azide, 0.05% BSA, 50% glycerol, pH7.3.

Dilution:WB 1:500 - 1:2000

Alternname:ASV; SRC1; THC6; c-SRC; p60-Src

For Research Use Only
