Human MB/Myoglobin ELISA Kit

E45K00067

Catalog Number:E45K00067

Species Reactivity: Human

Storage: Store at +4°C. Please refer to protocols.

Cite ID#:EN5520518

Type: Human ELISA Kits

Description: Human MB/Myoglobin ELISA Kit is a ready-to-use microwell, strip plate ELISA (enzyme-linked immunosorbent assay) Kit designed for the quantitative measurement of MB in biological samples. Our rigorously validated, ready-to-go Human MB/Myoglobin ELISA Kit use a simple protocol that easily integrates into your current processes, allowing you to rapidly and accurately detect MB in your samples. Appropriate sample types may include Cell Culture Supernates, Serum, Platelet-poor EDTA Plasma, Platelet-poor Heparin Plasma, Urine. Precision Intra-Assay Precision (Precision within an assay): Three samples of known concentration were tested several times on one plate to assess intra-assay precision. Inter-Assay Precision (Precision between assays): Three samples of known concentration were tested in several separate assays to assess inter-assay precision. Assays were performed by at least two technicians using two lots of components.

Assay type: Sandwich

Detection principle: Spectrophotometrical

Sample type: This immunoassay kit allows for the in vitro quantitative determination in Serum, plasma, tissue homogenates, cell culture supernates and other biological fluids.

Sensitivity:0.087 ng/mL

Assay range:0.156-10 ng/mL

Kit components: Assay Plate, Standard, Sample Diluent, Assay Diluent A&B, Detection Reagent A&B, Wash Buffer, Substrate, Stop Solution.

Other reagents required: Deionized or distilled water

Gene Name:MB

Swiss-Prot No.:P02144

Function: Serves as a reserve supply of oxygen and facilitates the movement of oxygen within muscles.

For Research Use Only

Form:ELISA Kits
