Human FN1/Fibronectin ELISA Kit

E45K00535

Catalog Number:E45K00535

Species Reactivity: Human

Storage: Store at +4°C. Please refer to protocols.

Cite ID#:EN5520986

Type: Human ELISA Kits

Description: Human FN1/Fibronectin ELISA Kit is a ready-to-use microwell, strip plate ELISA (enzyme-linked immunosorbent assay) Kit designed for the quantitative measurement of FN1 in biological samples. Our rigorously validated, ready-to-go Human FN1/Fibronectin ELISA Kit use a simple protocol that easily integrates into your current processes, allowing you to rapidly and accurately detect FN1 in your samples. Appropriate sample types may include Cell Culture Supernates, Serum, Platelet-poor EDTA Plasma, Platelet-poor Heparin Plasma, Urine. Precision Intra-Assay Precision (Precision within an assay): Three samples of known concentration were tested several times on one plate to assess intra-assay precision. Inter-Assay Precision (Precision between assays): Three samples of known concentration were tested in several separate assays to assess inter-assay precision. Assays were performed by at least two technicians using two lots of components.

Assay type: Sandwich

Detection principle: Spectrophotometrical

Sample type: This immunoassay kit allows for the in vitro quantitative determination in Serum, plasma, tissue homogenates, cell culture supernates and other biological fluids.

Sensitivity:0.078 ng/mL

Assay range:0.312-20 ng/mL

Kit components: Assay Plate, Standard, Sample Diluent, Assay Diluent A&B, Detection Reagent A&B, Wash Buffer, Substrate, Stop Solution.

Other reagents required: Deionized or distilled water

Gene Name:FN1

Swiss-Prot No.:P02751

Function: Anastellin binds fibronectin and induces fibril formation. This fibronectin polymer, named superfibronectin,

For Research Use Only

exhibits enhanced adhesive properties. Both anastellin and superfibronectin inhibit tumor growth, angiogenesis and metastasis. Anastellin activates p38 MAPK and inhibits lysophospholipid signaling.

Form:ELISA Kits

Synonyms:FN,Cold-insoluble globulin,CIG,FN
